

## Accessibility Policy and Multi-Year Accessibility Plan for National Steel Car Ltd.

In 2005, the government of Ontario set the goal of a “barrier-free Ontario” for people with disabilities by creating the *Accessibility for Ontarians with Disabilities Act* (“the Act” or “AODA”). Regulations were developed under AODA that set out the actions that organizations, including **National Steel Car Ltd.**, must take to meet this laudable goal. These Regulations as drafted cover accessibility standards in customer service, information and communications, employment, transportation and the built environment.

**National Steel Car Ltd.** is committed to helping Ontario become more accessible. **National Steel Car Ltd.** has already complied with the standards under O. Reg 429/07 (now O. Reg 191/11) – Accessibility Standards for Customer Service – by creating internal policies, practices and procedures which recognize the role **National Steel Car Ltd.** will play in making Ontario more accessible. These initiatives included the creation of a training program for employees on the AODA and how to provide accessible services. **National Steel Car Ltd.** has also developed a feedback process, via our website ([www.steelcar.com](http://www.steelcar.com)) and in hard-copy form available at our reception desk, for individuals to help ensure that we maintain our high level of accessibility.

This 2014-21 Accessibility Plan outlines the policies and actions that **National Steel Car Ltd.** will put in place to further improve opportunities for people with disabilities and to comply with the remaining requirements of the *Act*.
